

Combat Helmets

The range of Combat Helmets is composed of ballistic helmets with various shell modifications, adapted to specific equipment and aimed at protecting the user against fragments and munitions.

Designed for military and para-military operations, these helmets whilst comfortable and light enough for long missions provide unmatched ballistic protection for the user.

TC 3000 - TC 3001 - TC 3002

TC3000: ACH cut

TC3001: Full ear cutout

TC3002: Partial ear cut

TC 3000 Series Combat Helmets combine comfort with state of the art ballistic and impact protection.

The helmets feature a low profile design to reduce the risk of interference in target acquisition and ensure compatibility with NVGs, CBRN protective equipment, and communication devices.
